

# AGUSTIN CAMEJO

FRONT-END DEVELOPER

## Profile

Developer focused on creating engaging and optimized user experiences. Committed to constant learning to contribute to the digital world and bring solutions to real clients.

## Experience

MAY 2024 – JUNE 2024

**SOS Animal Fray Bentos** - *Freelance project* - <https://cryptosafearg.netlify.app/>

- Developed a web project using React.js and SaSS as a CSS preprocessor. Integrated the site with Google Spreadsheet through AppScript to allow the client to view form responses in an organized way.

JULY 2024 – PRESENT

**Certant S.A** - *Remote Position - E-Banking, BackOffice, and Multiplatform Application Project*

- Development and refactoring of UI components using React.js and TypeScript, styling implementation with SaSS following the BEM methodology, API integration and unit/integration testing with Cypress.
- Development and maintenance of an internal Flutter multiplatform app for employee and client management, including time tracking, leave requests, academic status, and benefits.
- Communication and collaboration with team members via Slack, Discord, Teams, and Google Meet.
- Task management using Wekan and Jira, and version control with GitLab.

JULY 2024 – PRESENT

**Master Bus S.A** - *Remote Position - Mobile Application*

- Contributed to the development of an Android application, improving route tracking, driver navigation, and real-time monitoring of buses and their speed using Kotlin, Google Maps SDK, and Retrofit.

## Education

MARCH 2015 – DECEMBER 2020

**"Manuel Belgrano" Secondary Institute** - *Bachelor's Degree in Economics and Administration.*

FEBRUARY 2022 – JULY 2025

**National Technological University, San Francisco** - *Higher National Certificate in Programming.*

## Languages

- English: Intermediate.
- Spanish: Native.
